

Torre C of E Academy is a SAFE and ACTIVE school!

Please help us keep the road outside our
school safe for all

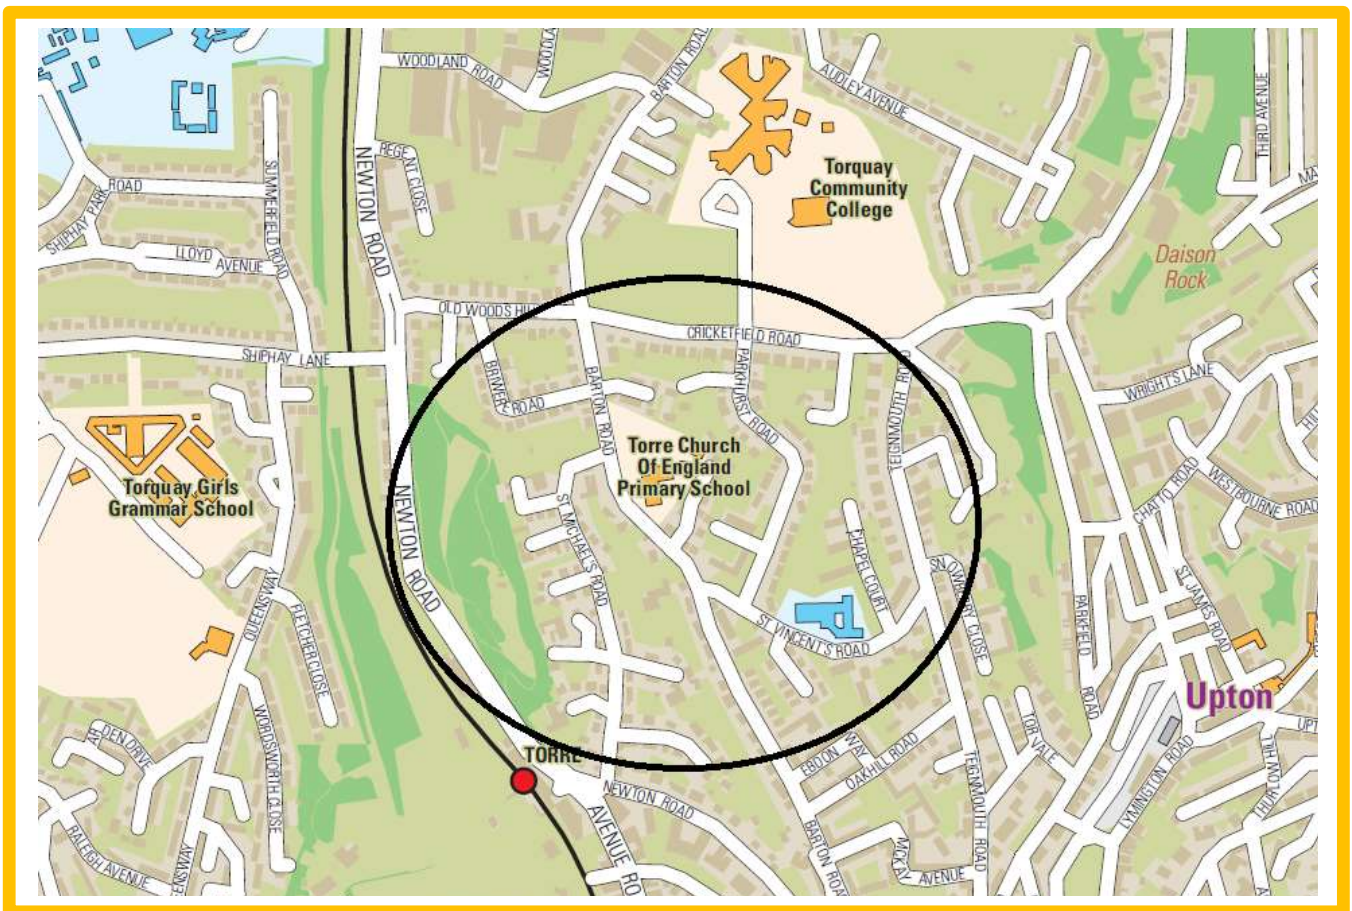

Do not stop on or near the yellow zig-zag lines

Can't walk to school? ... 'Park and Walk' instead

It's better for you, your child, and our air quality!

Walking half a mile only takes between 8 and 17 minutes depending how fast you walk. (Walking burns almost as many calories as running the same distance!)

Walking this short distance contributes to your child's recommended one hour a day of physical exercise

If you are unable to walk the whole way to school, please park outside the circle on the map and walk the rest of the way (approximately 5-10 minutes).

The largest numbers of road traffic collisions involving children happen at around the age of 11 and 12. Prepare your child for the transition to secondary school by walking to primary school with them.

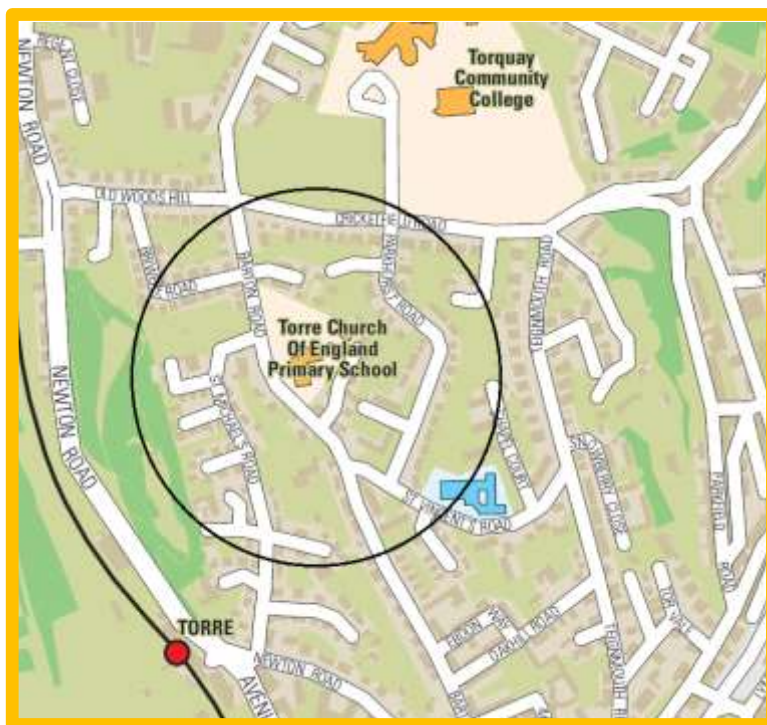

Dear Parents/Carers,

As you may be aware the school is working very hard to encourage active travel to school and reduce congestion at the gates. It is hoped that by doing this we can make the entrance to the school safer and encourage more children to walk to school.

We are aware that due to distance, work commitments and many other reasons, some parents are unable to walk their children the whole way to school.

One way we are addressing this is by setting up a Park and Stride. This is a simple initiative where parents/ carers are encouraged to park a short walk from the school and walk the rest of the way.

We are therefore requesting that parents and carers park outside the no drop off zone highlighted below and walk the rest of the way to school.

Thank you for your support,

Miss G Chew
